Course Handbook
MSc / Postgraduate Diploma / Postgraduate Certificate
Counter Terrorism
2020/21
Course Leader: Jim Bonworth
School of Forensic and Applied Sciences

Please read this Handbook in conjunction with the University’s Student Handbook.

All course materials, including lecture notes and other additional materials related to your course and provided to you, whether electronically or in hard copy, as part of your study, are the property of (or licensed to) UCLan and MUST not be distributed, sold, published, made available to others or copied other than for your personal study use unless you have gained written permission to do so from the Dean of School. This applies to the materials in their entirety and to any part of the materials.

   8.1. Programme Specification(s)
1. Welcome to the course

The School of Forensic and Applied Sciences at the University of Central Lancashire provides undergraduate education in the areas of Forensic Science, Policing and Criminal Investigation. It offers six main areas of specialist education within these programmes: forensic investigation (crime scene investigation, laboratory analysis and evidence interpretation), forensic biology, forensic anthropology, forensic chemistry, geography and policing. It has invested significantly in staff and physical resources in these six areas since its establishment (initially as the Centre for Forensic Science) in September 2000. In the time since its inception, it has successfully established itself as the largest provider of higher education in this field in the UK and now hosts some 1,500 undergraduate students and over 90 academic members of staff. Its specialist facilities, laboratories and equipment resources are arguably the best of any UK University.

The School has expanded its educational provision to the taught postgraduate arena through the validation and delivery of one-year MSc programmes in areas of particular staff expertise. The areas currently offered include Counter Terrorism, Criminal Investigation, DNA Profiling, Document Analysis, Fire Investigation and Forensic Anthropology to name but a few. I am pleased to welcome you to the start of your studies on these courses and also to the School. We are proud of our staff, courses and our students and I hope that, as well as benefiting from your postgraduate education, you will enjoy your time with us in the School.

This booklet contains, in addition to academic information, details of formal routes by which you can make your views of your educational provision known to us, but we also welcome more informal feedback and communication from our students. Please be assured that I and the other staff of the School will do our best to be available to you and responsive to your needs. As you come to know us over the next few weeks and months, I hope you will find us and the School provide a friendly and supportive environment for you and your studies. Welcome.

Professor Michael Mulqueen

Head of School of Forensic and Applied Sciences
1.1 Rationale, aims and learning outcomes of the course
This programme has been designed to provide an in-depth study of Counter Terrorism and develop critical and analytical skills involving the principles, practices and techniques of countering terrorism. The aims of the programmes are:

- To equip students with theory, knowledge and practical skills to operate as an investigator in cases of terrorism.
- To develop in students the critical thinking skills required to understand theories of terrorism.
- To develop analytical skills involving the theory, principles, practices and techniques of investigation in terrorism cases.
- To develop competence in research methods and the presentation of information.
- To develop skills in solving complex problems both independently and as a team member.
- To develop in students the confidence to make decisions in terrorism investigations.

The programme provides opportunities for learners to achieve the following outcomes:

**Knowledge and Understanding**

- Analyse a problem involving the specific theoretical and applied aspects of counter terrorism and be able to design and implement a suitable solution.
- Present complex information.
- Apply data handling skills, analyse and interpret theory and professional practice, effectively plan a project and use documentation skills in an appropriate manner.
- Design, plan and implement solutions to problems in counter terrorism and be capable of analysing the potential effectiveness of such solutions.
- Undertake a dissertation within guidelines and be able to critically evaluate the success of such a project.
- Apply the theory and applied skills developed on the course to a relevant individual project.
- Synthesise solutions to problems involving multiple aspects of counter terrorism either independently or as a team member.

**Subject Specific Skills**

- Implement investigative solutions and apply theoretical models to problems.
- Effectively communicate counter terrorism solutions with both experts and non-experts.
• Research theory and applied information from all relevant sources.
• Evaluate different potential solutions to complex problems.
• Identify gaps in current knowledge and academic theory.

Thinking Skills
• Critically evaluate complex and conflicting theoretical and applied information arising in terrorism case investigations.
• Plan and conduct a research project.
• Communicate findings with both experts and non-experts.
• Make informed decisions, and reflect on the implications of those decisions

Other skills relevant to employability and personal development
• Time management skills
• Work in, and lead, teams.
• Work independently.
• Generate original ideas.
• Confidence to make decisions based on applied and theoretical research and evidence based practice.
• Presentation Skills

1.2 Course Team
The course team are responsible for the academic delivery of the programme. The members of the course team are:

<table>
<thead>
<tr>
<th>Jim Bonworth</th>
<th>Course Leader</th>
<th><a href="mailto:jbonworth@uclan.ac.uk">jbonworth@uclan.ac.uk</a></th>
</tr>
</thead>
<tbody>

</tbody>
</table>

Jim is a senior lecturer and course leader for this MSc. He worked in a broad range of operational and headquarter roles with Greater Manchester Police for thirty years, retiring as a Chief Inspector having been head of Core Training. After leaving the police service Jim provided consultancy advising on delivery and implementation of the Prevent strand of CONTEST, the UK's Counter-terrorism strategy, before joining UCLan in 2009. He has a Master's in Education and is continuing with research into decision-making and the investigation of UK terrorism cases. Jim is a Fellow of the Higher Education Academy and Member of the Chartered Management Institute.

Ian lectures in Counter terrorism at both undergraduate and post-graduate level. Having completed thirty years police service and reaching the rank of Superintendent, Ian joined the lecturing team in February 2017 having been a guest lecturer since 2014. Ian’s policing focused on divisional policing in Greater Manchester’s inner city areas and strategic leadership in the areas of Criminal Justice, Performance Management and Evidence Based Policing. Ian completed European Baccalaureate studies in Valladolid, Spain in 1985 prior to commencing a policing career with Greater Manchester Police. He was awarded a Masters in Criminology from Cambridge University in 2011 where his research area was the use of evidence based practice in policing. He was a founding member of the British Society of Evidence Based Policing and his Master’s thesis has been cited in a number of academic journal articles and books. Ian is currently undertaking Doctoral research into the phenomena of ‘Suspect Communities’ within a counter-terrorism context. Ext: 3816

1.3 Expertise of staff
The course team are particularly qualified to teach this course. The course material is delivered by around twelve serving or retired practitioners who are experts in their respective fields. The full-time academic tutors are engaged in subject-relevant research while associate tutors keep relevant in their specialist area by working with national and international organisations and various North West police services.

1.4 Academic Advisor
You will be assigned an Academic Advisor who will provide additional academic advice and support during the year. They will be the first point of call for many of the questions that you might have during the year. Your Academic Advisor will be able to help you with personal development, providing insight and direction to enable you to realise your potential.

1.5 Administration details
Course Administration Service provides academic administration support for students and staff and are located in the following hubs which open from 8.45am until 5.15pm Monday to Thursday and until 4.00pm on Fridays. The hub can provide general assistance and advice regarding specific processes such as extenuating circumstances, extensions and appeals.

Foster Building
Forensic and Applied Social Sciences
Pharmacy and Biomedical Sciences
Psychology
Physical Sciences
telephone: 01772 891990/1
e-mail contact: FosterHub@uclan.ac.uk
1.6 Communication

The University expects you to use your UCLan email address and check regularly for messages from staff. If you send us email messages from other addresses they risk being filtered out as potential spam and discarded unread.

UCLan staff and tutors will contact you by email, using your UCLan address in the first instance. Answers to your emails are typically sent within 24 hours, within the working week, Monday to Friday. Many notifications regarding the course are posted on the virtual learning system (VLS) called Blackboard. Once you are registered and enrolled on the course you will have access to all of the modules you need access to.

Office hours for staff are typically 8.30am to 4pm Monday to Friday, but some days teaching continues until 7pm, so these hours may vary. If you need to see a course tutor email the person to arrange a meeting convenient for both.

1.7 External Examiner

The External Examiner is Dr Ian Marsh who is a Principal Lecturer at Liverpool Hope University in the Faculty of Science and Social Sciences. The External Examiner produces a report annually which will be posted on Blackboard for your information.

2. Structure of the course

2.1 Overall structure

The course can be taken full or part time and also as an attended or online option. The full-time attended option has face-to-face teaching of six hours each week at Preston. However you can also complete the course part-time, over two years. There is also a full-time and part-time option of completing the degree online which means you do not need to attend classes at Preston, but meet other students and tutors in an online environment.

The full-time Masters course is a three-semester programme which lasts for 36 weeks. The first two semesters are 12 teaching weeks long and correspond to the two University semesters while the third semester of 12 weeks is over the summer period [see Fig.1].

There are two intermediate exit points designed into the course. A student who successfully completes the three modules in Semester 1 may be eligible for a Postgraduate Certificate (PgCert). A student who successfully completes the six modules in both Semesters 1 and 2 is eligible for a Postgraduate Diploma (PgDip).

Fig.1

<table>
<thead>
<tr>
<th>Semester 1 (12 weeks)</th>
<th>Semester 2 (12 weeks)</th>
<th>Semester 3 (12 weeks)</th>
</tr>
</thead>
<tbody>
<tr>
<td>FZ4711 International Terrorism</td>
<td>FZ4710 Religion and Radicalisation</td>
<td>FZ4707 MSc Dissertation</td>
</tr>
</tbody>
</table>
The part-time course is delivered as four modules in year one and five modules in year two as follows:

**Year 1: Semester 1**
- Module Code FZ4708 - Policing Terrorism
- Module Code FZ4711 - International Terrorism

**Year 1: Semester 2**
- Module Code FZ4712 - Investigating Terrorism
- Module Code FZ4710 - Religion and Radicalisation

**Year 2: Semester 1**
- Module Code FZ4701 - Research Methods for Crime & Criminal Justice

**Year 2: Semester 2**
- Module Code FZ4729 – Research in Practice

**Year 2: Semester 3**
- Module Code FZ4707 - MSc Dissertation [triple module]

### 2.2 Modules available

Each module is a self-contained block of learning with defined aims, learning outcomes and assessment. A standard module is worth 20 credits. It equates to the learning activity expected from one sixth of a full-time postgraduate year. Modules may be developed as half or double modules with credit allocated up to a maximum of 120 credits per module. The modules for this course are all mandated and outlined below. There are no optional modules.

**FZ4701 Research Methods for Crime & Criminal Justice**

Investigators are required to have a wide range of skills beyond expertise in their specialist subject. This module provides the necessary skills in research techniques appropriate to the discipline, project management, data analysis and retrieval etc. and equips the student to undertake primary research by acceptable and valid methodologies, some of which will be used in the dissertation module.

**FZ4707 MSc Dissertation**

You will undertake a project which uses and enhances many of the skills learnt on the course, including undertaking primary research. Following the conclusion of the work, you will complete a 10,000 word report on the project; you will be expected to justify your choice of research methodology and comment on your work’s validity and reliability.

**FZ4708 Policing Terrorism**

Terrorism is an area of criminality that established investigative agencies such as the police are required to investigate. This policing area is subject to much attention because of worldwide events such as 9/11 and the UK has developed the CONTEST strategy as a response. The module aims to provide students with detailed knowledge of UK law and policy on terrorism.
FZ4710 Religion and Radicalisation
History shows that extremism comes in many forms and is motivated in a variety of ways. This module critically examines how faith affects radicalisation in context and what this might mean for counter terrorism methodologies and leadership of organisations responsible for this task. Approaches to reducing the likelihood of young people being radicalised into violent extremism are explored and the module aims to provide students with a conceptual understanding of the difficulties involved and to develop and apply solutions.

FZ4711 International Terrorism
This module critically reviews appropriate legislation and policy illustrating these by use of significant case studies and examination of the resulting investigations. The relationship between organisations tasked with investigative responsibilities and the wider political landscape are considered. Emerging international threats and the factors which drive terrorism are explored and students successfully completing the module will have a comprehensive knowledge of the subject matter.

FZ4712 Investigating Terrorism
This module describes how students might understand the investigation of terrorist crimes operating at a complex level. Students apply legislation, policy and techniques appropriate to investigations into terrorist incidents. Examining issues in respect of intelligence-led working with partner agencies students successfully completing the module will have a comprehensive understanding of relevant investigative strategies.

FZ4729 Research in Practice
The purpose of this module is to enhance students’ knowledge and understanding of the nature of inquiry and to develop knowledge and skills in study design, assessing research quality, validity and critical evaluation. Following on from the more technical aspects of the Research Methods module this module allows students to develop and apply knowledge of qualitative and quantitative research techniques to distinguish appropriately between method and methodology and to assess the quality and validity of research. The module provides students with a theoretical framework upon which to base both empirical and practical approaches to research and the skills and understanding necessary to work independently, interpret and report results from research, in practice.

2.3 Course requirements
The modules that you will study in Semesters 1 and 2 will be delivered using seminars which require students to prepare beforehand and engage within the classroom session.

Students that are online will have available to them Adobe Connect software. The tutor will deliver seminars, engage in discussion and the software is also used for group work and presentations. Online sessions are recorded and made available to all students.

2.3 Module Registration Options
Discussions about your progression through the course normally take place in February each year. It is an opportunity for you to make plans for your study over the next academic year. The course team will tell you about the various modules / combinations available and you will both agree on the most appropriate (and legal) course of study for you.
2.4 Study Time
2.4.1 Weekly timetable
The timetable will be accessed using Blackboard the University’s virtual learning system.

2.4.2 Expected hours of study
The normal amount of work involved in achieving a successful outcome to your studies is to study for 10 hours per each credit you need to achieve – this includes attendance at UCLan and time spent in private study. Each single module is equivalent to 20 credits, therefore the expectation is each single module will require a total of 200 hours study.

Over the course of a semester this equates to just over 12 hours study per week per module which may be broken down into seminars, tutorials and independent study (in the library or at home). This amounts to a minimum of 36 hours per week. Any lesser commitment than this is unlikely to produce a good degree. You should bear this in mind if you are going to undertake employment. Your first commitment must be to the course: if you are a full-time student it means just that.

Semester 3 of the course is the MSc Counter Terrorism Research Report and you will be expected to spend approximately 12 weeks undertaking a project. Whilst conducting your research you will be expected to work on your project for at least 36 hours per week.

The amount of time spent in private study will vary from student to student and will depend on your academic ability. The recommended time should therefore in practice be taken as a minimum value.

2.4.3 Attendance Requirements
You are required to attend all timetabled learning activities for each module. Notification of illness or exceptional requests for leave of absence must be made to Students should report non-attendance to the hub email – FosterHubAttendance@uclan.ac.uk or by telephoning the hub on 01772 891990 or 01772 891991.

3. Approaches to teaching and learning
3.1 Expertise of staff
See section 1.3 above
3.2 Learning and teaching methods

The programme is designed to produce Masters Graduates with both general and specific skills pertinent to the area studied. The courses are assessed by formative and summative coursework to ensure that your knowledge and abilities are fully evaluated.

The course will be delivered by lectures and seminars often involving practically focused debating sessions.

Counter terrorism is a multi-disciplinary subject covering elements of a range of theoretical principles and practical applications. Consequently the subject matter covered is diverse and the school therefore uses a diverse portfolio of teaching and assessment methods to reflect the nature of this subject. There are seminars followed up by group tutorials in which the subject of the session is explored in detail. Skills are developed through practical sessions which may incorporate stand-alone practical exercises or individual or group projects. You are also encouraged to engage in considerable independent study and indeed this is essential to pass the course.

Much of the course is delivered by university staff but, where appropriate, experts in their own field are brought in to speak with authority from their own experience and expertise.

As with all university education you are responsible for your own learning; the seminars are merely the starting point and you will have to undertake a substantial amount of study in order to succeed.

The aim of the School is to promote deep and active learning and for you to achieve an appropriate balance between (a) the accumulation of subject specific knowledge (b) the understanding of subject-specific concepts (c) the application of these and (d) the development of general investigative and presentational skills.

3.3 Study skills

Teaching staff recognise that students, particularly those returning to study after a gap or without an undergraduate degree, may find the skills of studying and academic essay writing initially difficult to acquire or re-acquire. To that end staff will provide generic or where necessary 1:1 support.

All of the courses within the school have a study skills module to assist with the development of your academic and employability skills. There are a variety of other services that support schools and these include: WISER [http://www.uclan.ac.uk/students/study/wiser/index.php]
Study Skills - ‘Ask Your Librarian’

https://www.uclan.ac.uk/students/support/study/it_library_trainer.php

You can book a one to one session with a subject Librarian via Starfish. These sessions will help with questions such as “My lecturer says I need a wider variety of sources in my references, what do I do?”
"I need to find research articles, where do I start?"
"How do I find the Journal of ...?"
"How do I use RefWorks?"
3.4 Learning resources

3.4.1 Learning and Information Services (LIS)

The best place to start when exploring the Library resources available to you is:
- Your ‘Subject Guide’ can be found in the Library Resources
- Your ‘My Library’ tab in the Student Portal
- Library search

Extensive resources are available to support your studies provided by LIS – library and IT staff. Take advantage of the free training sessions designed to enable you to gain all the skills you need for your research and study.

LIS provide access to a huge range of electronic resources – e-journals and databases, e-books, images and texts.

Course and module materials are not provided in ‘hard copy’ format, however, wherever practicable, lecture notes and/or presentations, seminar materials, assignment briefs and materials and other relevant information and resources are made available in electronic form via BlackBoard. This is the brand name for the on-line Virtual Learning Environment (VLE) that the University uses to support and enhance teaching and learning.

All students can access the BlackBoard spaces for the course and modules that they are registered for. Once logged into your BlackBoard area you can access material from the course and all of the modules you are studying without having to log in to each module separately.

3.4.2 Electronic Resources

LIS provide access to a huge range of electronic resources – e-journals and databases, e-books, images and texts. Additional material will be provided to students via BlackBoard.

3.5 Personal development planning

While you are studying for your MSc, you will learn many new concepts, analyse them, evaluate them and apply them. You already expect to learn lots of facts and techniques to do with your subject specialism, but you will also learn other things of which you might not be aware. You will learn how to study more independently than you may have done previously, how to work with other people, how to manage your time to meet deadlines, and so on. If you are to be an employable individual it is vital that you can list the skills employers value in your CV.

Employers are looking for skills like:
- self-organisation
- team work
- good written communication
- good oral communication
- problem solving

In order to help you in this area, the school has introduced a system that aims to:
- help you to identify the skills you should be developing,
- help you to identify the ones you are weak in, and
take action to improve those skills.

This approach can broadly be described as **Personal Development Planning**, and can be defined as:

*A structured and supported process undertaken by an individual to reflect upon their own learning, performance and/or achievement and to plan for their personal, educational and career development.*

The University puts a high priority on your personal development, and so keeping a record of your achievements is encouraged and will help when you are applying for jobs. When you ask staff for a reference, they could use this information to help them provide more rounded detail.

### 3.6 Preparing for your career

You have chosen to study one of the MSc courses, presumably with a view to pursuing a career in that field area in the future. All our courses have been designed to ensure that you have the relevant knowledge and skills base to be well placed to secure employment and pursue a career in your chosen field. However, your University experience is not only about achieving your chosen award, it is also about developing as a person and realising your potential. We want you to gain the skills and attitudes that will help you to achieve your goals and aspirations.

Your future is important to us, so to make sure that you achieve your full potential whilst at university and beyond, your course has been designed with employability learning integrated into it. This is not extra to your degree, but an important part of it which will help you to show future employers just how valuable your degree is. These “Employability Essentials” take you on a journey of development that will help you to write your own personal story of your time at university.

UCLan Careers team offers a range of support for you including:

- career and employability advice and guidance appointments
- support to find work placements, internships, voluntary opportunities, part-time employment and live projects
- workshops, seminars, modules, certificates and events to develop your skills

Daily drop in service available from 09:00-17:00 for CV checks and initial careers information. For more information arrange to visit the team or access careers and employability resources via the Student Portal.

### 4. Student Support

Information on the support available is at: [https://www.uclan.ac.uk/students/](https://www.uclan.ac.uk/students/)
The <i>i</i> is a central Student Information Centre and your first point of contact located on the ground floor of the UCLan Library. You can obtain information on a wide range of topics including Council Tax Exemption Certificates, Bank and Confirmation of Study Letters, Portable Financial Credits, Printing and Printer Credit, UCLan Cards and the "i" shop.

4.1 Academic Advisors

The overall aim of Academic Advisor support is to enhance your experience at UCLan. Your Academic Advisor:

• Should be the first point of contact in any issues you are facing. Your academic Advisor may not be able to deal with your concern, but will be able to signpost you to relevant services;
• Will be a member of staff associated with your course;
• Will be allocated to you during the induction period and will normally remain your Academic Advisor for the duration of your course.

4.2 Students with disabilities

If you have a disability that may affect your studies, please either contact the Disability Advisory Service - disability@uclan.ac.uk - or let one of the course team know as soon as possible. With your agreement information will be passed on to the Disability Advisory Service. The University will make reasonable adjustments to accommodate your needs and to provide appropriate support for you to complete your study successfully. Where necessary, you will be asked for evidence to help identify appropriate adjustments.

The School has a named lead for students with disabilities Arati Iyengar.

4.3 Students’ Union

The Students’ Union offers thousands of volunteering opportunities ranging from representative to other leadership roles. We also advertise paid work and employ student staff on a variety of roles. You can find out more information on our website: http://www.uclansu.co.uk/

5. Assessment

Please note that all modules will be assessed. You are expected to attempt all required assessments for each module for which you are registered, and to do so at the times scheduled unless authorised extensions, special arrangements for disability, or extenuating circumstances allow you to defer your assessment.

5.1 Assessment Strategy

The modules are assessed by coursework. To ensure that you do not have an excessive amount of assessment at any one time, the coursework assessment will take place throughout the course.

Semester 1 of the course is designed to ensure that you have the basic skills needed to obtain an MSc. It is important that you develop a range of skills that will be of benefit when you gain
employment after the course. The main skills that you are developing will be in the areas of presentations, reflective writing and problem solving.

You will prepare essays, reports and presentations and peer group assessment may be used and you will be encouraged to discuss your strengths and weaknesses with each other.

Report writing will take several different forms to ensure that you develop different techniques according to the nature of the task being undertaken. These consist of the conventional report, articles of prescribed length etc. In addition there will be problem-solving tasks that will involve literature searches, use of the Internet and case studies.

Modules will be assessed by coursework assignments. Each assignment will be substantial and will be based upon work undertaken in seminars and lectures. Modules assessed by coursework only may have additional assignments that can take the form of a mini project. A schedule of assignments will be drawn up ensuring that there is no more than one assignment in a particular week. The deadline for handing in of assignments will be rigorously adhered to as would be expected in a working environment.

5.2 Notification of assignments and examination arrangements

Normally assessed work should be submitted through BlackBoard and Turnitin. Information about the requirements for individual assessments and their respective deadlines for submission/examination arrangements will be provided in the assignment brief or in the module booklet that will be posted on BlackBoard.

5.3 Referencing
Students MUST use Harvard referencing to refer to sources in assignments. The Harvard system has many different styles, but this school uses the Lancashire Business School (LBS) Harvard style. There is a handbook of how to use LBS Harvard on Blackboard and examples are available using this link: https://www.uclan.ac.uk/students/study/wiser/referencing_guides.php

5.4 Confidential material
You are not required to access confidential information during the course e.g. offender details which might inform an assessment. However, you may have access to data which is subject to the Data Protection Act 1998 as part of your job. Students are reminded of the ethical and legal responsibilities to respect confidentiality and maintain the anonymity of individuals and organisations within their assignments.

5.5 Cheating, plagiarism, collusion or re-presentation
Please refer to the information included in section 6.6 of the University Student Handbook for full definitions. The University uses an online Assessment Tool called Turnitin. Students are required to submit their own assignment on Turnitin and will be given access to the Originality Reports arising from each submission. In operating Turnitin, Schools will take steps to ensure that the University’s requirement for all summative assessment to be marked anonymously is not undermined and therefore Turnitin reports should be anonymised. Turnitin may also be used to assist with plagiarism detection and collusion, where there is suspicion about individual piece(s) of work.

Plagiarism is also covered in the Student Handbook. The Regulations for the Conduct of Students define Plagiarism as “Any use of unfair means in an attempt to enhance performance”. It is, more simply, ‘cheating’. 
Plagiarism is passing the work of other people as your own. It does not matter if that someone is a well-known published author, a web page or another student, it still counts as plagiarism. All quotes, ideas, images and music have to be properly acknowledged and referenced. Even if someone agrees that you may use their ideas or material, inappropriate referencing will still be considered plagiarism.

Plagiarism can be detected by the university through an electronic plagiarism detection device that looks through the web and extensive databases of reference material to detect duplication.

Plagiarism is a very serious academic offence and can be punishable. This is true even when the student is unaware that they are plagiarising. The first time someone is found to have committed plagiarism, they will normally be required to resubmit their work and the MODULE mark will have a maximum of 50% (bare pass). The second time someone commits plagiarism, no re-submission is offered and the MODULE will have a maximum mark of 0%.

More information is available at: http://www.uclansu.co.uk/academicmatters/unfairmeans

5.6 How do I know that my assessed work had been marked fairly?
Assessment is an integral part of the course. Module staff work closely together to design assessments, agree the marking criteria and approve final versions of assessments to ensure that these are appropriate. The criteria for assessment will be communicated to you clearly during the module teaching.

All module staff engage in development and training in assessment, marking and feedback. Once the assessments have been completed the module team will discuss the assessment methods and marking criteria, prior to starting to mark, so that there is a common understanding of what is expected of students. All assessed modules have moderation built into the marking process. Moderation involves sampling students’ assessed work to make sure that the learning outcomes and agreed marking criteria have been interpreted and applied in the same way. This ensures that you and your fellow students are treated equitably and that the academic standards are applied consistently. During the marking process the module leader will co-ordinate moderation to ensure that at least 10% of assessed work (or a minimum of three pieces) has been reviewed by other markers and any concerns about consistency or accuracy addressed with the whole module team. Your work may or may not be part of this sample, but the processes for developing assessments and marking criteria as well as moderation mean that you can be confident that teaching staff are marking assessments to the same criteria. Module teams may then use feedback from moderation to improve clarity about the nature and purpose of future assessment, or to make changes if required.

Modules are also moderated externally. The module leader will arrange for the external examiner to receive a sample of work for review and comment. External examiners cannot change individual grades but can act as ‘critical friends’ and confirm that marking standards are in line with other, similar courses in the sector. If, on reviewing the sample, external examiners feel that the marking criteria have not been applied consistently the work of the whole cohort will be reviewed.

6. Classification of Awards
The University publishes the principles underpinning the way in which awards and results are decided in Academic Regulations. Decisions about the overall classification of awards are made by Assessment Boards through the application of the academic and relevant course regulations.
7. Student Feedback
You can play an important part in the process of improving the quality of this course through the feedback you give.

Feedback has resulted in several changes, for example in 2015-16 students asked for the Research Methods module (FZ4701) to be moved from semester two to semester one. This change was implemented in the 2016-17 academic year.

7.1 Student Staff Liaison Committee meetings (SSLCs)
The purpose of a SSLC meeting is to improve courses, to have an open discussion and respect each other's views, to share good practice where identified, to provide opportunity for students to feedback to staff about their course and student experience, to regularly review the course to improve its development, and to jointly work together to action plan against issues raised.

There will normally be one meeting per semester which will last no more than 2 hours. Your School President will Chair the meetings with an academic co-Chair, using guidelines and will provide a record of the meeting with any decisions and / or responses made and/or actions taken as a result of the discussions held. A standard agenda and action grid template will be used. Course representatives will gather feedback from students and communicate this to the School President in advance of the meetings.
8. Programme Specification(s)

**UNIVERSITY OF CENTRAL LANCASHIRE**

Programme Specification

This Programme Specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided.

*Sources of information on the programme can be found in Section 17*

| 5. Title of Final Award | MSc Counter Terrorism  
Postgraduate Diploma Counter Terrorism  
Postgraduate Certificate Counter Terrorism |
| 6. Modes of Attendance offered | Full-time/part-time |
| 7a) UCAS Code | |
| 7b) JACS Code | F410 |
| 7c) HECOS Code | 100486 |
| 8. Relevant Subject Benchmarking Group(s) | QAA Masters Degree Characteristics |
| 9. Other external influences | |
| 10. Date of production/revision of this form | April 2018 |
| 11. Aims of the Programme | |
| • To equip students with theory, knowledge and practical skills to operate as an investigator in cases of terrorism. |
| • To develop in students the critical thinking skills required to understand theories of terrorism. |
| • To develop analytical skills involving the theory, principles, practices and techniques of investigation in terrorism cases. |
| • To develop competence in research methods and the presentation of information. |
| • To develop skills in solving complex problems both independently and as a team member. |
| • To develop in students the confidence to make decisions in terrorism investigations. |
### 12. Learning Outcomes, Teaching, Learning and Assessment Methods

#### A. Knowledge and Understanding

| A1 | Analyse a problem involving the specific theoretical and applied aspects of counter terrorism and be able to design and implement a suitable solution. |
| A2 | Present complex information. |
| A3 | Apply data handling skills, analyse and interpret theory and professional practice, effectively plan a project and use documentation skills in an appropriate manner. |
| A4 | Design, plan and implement solutions to problems in counter terrorism and be capable of analysing the potential effectiveness of such solutions. |
| A5 | Undertake a dissertation within guidelines and be able to critically evaluate the success of such a project. |
| A6 | Apply the theory and applied skills developed on the course to a relevant individual project. |
| A7 | Synthesise solutions to problems involving multiple aspects of counter terrorism either independently or as a team member. |

**Teaching and Learning Methods**  
Lectures, seminars, directed reading, group and individual presentations and case studies

**Assessment methods**  
Course work including essays, reflective assignments, dissertation and presentations

#### B. Subject-specific skills

| B1 | Implement investigative solutions and apply theoretical models to problems. |
| B2 | Effectively communicate counter terrorism solutions with both experts and non-experts. |
| B3 | Research theory and applied information from all relevant sources. |
| B4 | Evaluate different potential solutions to complex problems. |
| B5 | Identify gaps in current knowledge and academic theory. |

**Teaching and Learning Methods**  
Lectures, seminars, directed reading, group and individual projects and presentations.

**Assessment methods**  
Coursework including essays, reflexive analysis and presentations.

#### C. Thinking Skills

| C1 | Critically evaluate complex and conflicting theoretical and applied information arising in terrorism case investigations. |
| C2 | Plan and conduct a research project. |
| C3 | Communicate findings with both experts and non-experts. |
| C4 | Make informed decisions, and reflect on the implications of those decisions. |

**Teaching and Learning Methods**  
Skills developed through lectures, data interpretation, case studies, research projects, reflection, presentations and problem solving.

**Assessment methods**  
Preparation of essays, reports, group and individual presentations and reflective practice.

#### D. Other skills relevant to employability and personal development

| D1 | Time management skills |
| D2 | Work in, and lead, teams. |
| D3 | Work independently. |
| D4 | Generate original ideas. |
| D5 | Confidence to make decisions based on applied and theoretical research and evidence based practice. |
| D6 | Presentation Skills |

**Teaching and Learning Methods**
Skills developed through lectures, tutorials, directed reading of academic journals, case studies, research projects, presentations, problem solving and reflective practice.

**Assessment methods**
Preparation of essays, reports group and individual presentations.

14. Awards and Credits*

- **Master's Degree in Counter Terrorism**
  Requires 180 credits at Level 7

- **Postgraduate Diploma in Counter Terrorism**
  Requires 120 credits at Level 7
  Any combination of modules may be studied

- **Postgraduate Certificate in Counter Terrorism**
  Requires 60 credits at Level 7
  Any combination of modules may be studied

15. Personal Development Planning/Critical Reflexivity

This is a supported process undertaken by an individual to reflect upon their own learning, performance and / or achievement and to plan for their personal, academic and career development. PDP is delivered and monitored through project modules and the academic advisor system. Students use a reflective handbook and are guided using an introductory lecture during induction week.

16. Admissions criteria *

*(including agreed tariffs for entry with advanced standing)*

*Correct as at date of approval. For latest information, please consult the University’s website.*

Applicants will normally be required to have:

- 2:2 Hons Degree or equivalent qualifications and experience

Applicants will be required to have a minimum level of proficiency in English Language equivalent to IELTS grade 6.5 with no sub-score lower than 6.0.

Please consult the website or UCLAN admissions department for the most up to date requirements.

**Note:** Mapping to other external frameworks, e.g. professional/statutory bodies, will be included within Student Course Handbooks
19. LEARNING OUTCOMES FOR EXIT AWARDS:

Learning outcomes for the award of: Post Graduate Certificate

A1. Analyse a problem involving the specific aspects of counter terrorism and be able to design and implement a suitable solution.
A2. Present complex information.
A7. Synthesise solutions to problems involving multiple aspects of counter terrorism either independently or as a team member.

B1. Implement investigative solutions to problems.
B2. Effectively communicate counter terrorism solutions with both experts and non-experts.
B3. Research information from all relevant sources.
B5. Identify gaps in current knowledge.

C3. Communicate findings with both experts and non-experts.
C4. Make informed decisions, and reflect on the implications of those decisions

D1. Time management skills
D2. Work in, and lead, teams.
D3. Work independently.
D4. Generate original ideas.
D5. Confidence to make decisions.
D6. Presentation Skills
